DETAILED ACTION

Allowable Subject Matter

1. Claims 36-41, 47-52 and 74-115 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claims 36-41 and 89-104; prior art fails to disclose or suggest, inter alia, a soft transition power converter having a source controller to produce an alternating current by alternating the voltage across a secondary winding from one of a negative ON time during which the voltage is negative and a positive ON time during which the voltage is positive to a dead time wherein the voltage is substantially zero and then to the other of the negative ON time and positive ON time.

Claims 47-52, 74-88 and 105-113; prior art fails to disclose or suggest, inter alia, a soft transition power converter having a source controller for controlling an alternating current source so as to produce the alternating current by alternating the voltage across a primary winding a first active time during which the voltage is one of positive and negative, thence to a dead time during which the voltage is substantially zero, and thence to a second active time during which the voltage is the other of positive and negative.

Claims 114 and 115; prior art fails to disclose or suggest, inter alia, a method for converting power in a power converter that includes a source connected to a primary winding to produce alternating electrical current in a secondary winding, the method comprising controlling the source so as to produce the alternating current by alternating the voltage across the primary winding a first active time during which the voltage is one of positive and negative, thence to a

dead time during which the voltage is substantially zero, and thence to a second active time during which the voltage is the other of positive and negative.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary L. Laxton whose telephone number is (571) 272-2079. The examiner can normally be reached on Monday thru Thursday.
